Court convened at a few minutes past 19, and all participants looked the better for having rested on Sunday. Mr. Marks was recalled and saked by Mr. Royall again if he had told C. W. Harris that he would "its Busby yet."

Witness did not remember.

Mr. Harris was put on and swore that Marks had said this to him. Mr. Lindsay Allen, a salesman for Busby, was sworn, but he was asked only a few questions and excused. Mr. Allen was asked specifically if he had incroduced Dawson to Marks. He said he had not Etonographer T. E. He was also asked with reference to some of Dawson's former testimony.

remee to some of Dawson's former testimony.

Mr. Fred Thalheimer, of Baltimore, was now put on by the defendants, and he swore that the desk of Thalheimer Brothers, containing the alleged agreement of Eusby not to sue Marks had been destroyed in the recent conflagration. Busby swore on Saturday that the desk was still in Thalheimer's office. The witness now on the stand declared that he drew the agreement, which Busby signed, and that it distinctly stated that in consideration of getting a copy of the Marks letter Busby would not sue Marks.

At 10:15 both sides announced that they would rest at this point, and the court discharged the Jury until 11 o'clock today, when the argument will begin.

The Norfolk and Western is preparing for the annual three days' excursion to the mountains. These annual trips are looked forward to with great pleasure. The trip this year will be exceptionally attractive. The train will leave Rishmond on July 12th, and will go to Lynchburg. Roanoke and the Blue Ridge for a three days' stay. The Peaks of Otter will be visited and the Norfolk and Western people promise all sorts of exhilarating weather and water. Johnnie Wagner, the city passenger agent, can tell all about the trip.

The Sunday excursion via the Chesapeake and Ohio, under the management of Joe West, was well patrontzed Sunday by those who wished to get a glumpo of the ocean off Ocean View. Many persons went to Nortok, Newport News, Old The Trilly carried many pleasure seekers to the seashore also over the Norfolk and Western.

Geological Survey Has Party at Ida Howard, "Colored Badger Work in and Around Jamestown.

(From Our Regular Correspondent.) WASHINGTON, D. C., June 20.-It is innounced at the Geological Survey today that a party in charge of Mr. Albert Pike is engaged in mapping the Yorktown and Gloucester quadrangles of Virtown and Gloucester quadrangles of Virginia. These include the countles of New Kent. Gloucester. Charles City, James City and York, and cover the historic country about Jamestown, Williamsburg and Yorktown. The maps, or rather the field-work, will be completed in a comparatively short time, and then the party will go to Georgia and survey an area covering portions of Oglethorpe, Elbert, Wilkes and Taliaterro.

The maps, on which the Geological Survey is now working, will be completed this winter or next spring, probably—certainly long before the Jamestown Exposition.

this winter or next spring, probably—certainly long before the Jamestown Exposition.

Mention of the Geological Survey recalls that it is stated by the officials of that bureau that one of the few amethyst mines in the United States are located in Virginia. Specimens of amethyst from Virginia, but nothing of importance, had been known to students and collectors for years. Recently, however, a promising locality has been opened and some good gem material taken out in Amherat county, about two miles from Lowesville, and about the same distance from James River. It occupies an area of some eleven acres, and the amethyst occurs but a few inches below the surface. It is not known that anything further is being done to exploit the deposits.

The value of the gold mined in Virginia last year is not known at the survey, but in 1902 it amounted to 145 ounces, the value of which was \$3,300. In 1901 the gold taken from Virgina mines amounted to 5,500 ounces.

The coining value of the silver mined in Virginia in 1902 was \$7,623; the commercial value, \$3,127. The total value of the silver and gold mined in 1902, placing silver at the commercial value, was \$3,227.

So it will be seen that the mining of gold and silver in Virginia does not cut much of a figure in the industrial life of the State.

But in North Carolina it is different. The value of the gold mined in that State in 1002 was \$30,700. The total value of the gold and silver produced in that year was \$101,777, silver being estimated at its commercial value. Does Not Agree With the Pope

commercial value.
